She advised that, as their annual grant from West Berkshire Council for running costs had been significantly reduced this year, they were seeking additional funding from Burghfield, Mortimer Parish Councils and The Good Exchange to make up the difference in order to keep running the service. The Chairman advised that this matter would need to be raised to Full Council and requested that Mrs. Seward send details of the proposal to the Clerk.</p>	Clerk

Barber confirmed that Acorn Ecology had completed an ecological survey outlining recommendations for the Fairground and conservation area, together with the proposed green space on the new development. The Fairground and Cemetery Committee has now taken on the recommendations for the Fairground, incorporating these into the grounds maintenance contract for the next three years, and pond restoration work has begun in accordance with the survey report. Work within the conservation area will begin later in the year.</p> <p>Recommendations for the green space on the development have been shared with T.A. Fisher. N. Carter presented some ideas on the installation of electric car charging points in the village and, further to discussion on several of the points raised, the Committee asked Cllr. N. These working groups would make decisions and would be able to take actions forward. No major expenditure is envisaged until after May 2019 when the new Parish Council and Committee membership are set up.
