

The tennis courts have been in place for over twenty years and have been cleaned regularly during that period. The playing surface is now showing signs of deterioration. Whilst the courts remain playable we ask all users to take care during inclement weather as the surface may be slippery in places.

The Parish Council, with the support of the Tennis Club, has applied to the Inspired Facilities Programme of Sport England for a substantial grant (over £40,000) to relay the playing surface and update the facilities. We hope to hear whether we have been successful within a few months.
