Further to a meeting held with representatives from Great Western Railway, Englefield Estates, ProVison and Stuart Michael Associates on 28<sup>th</sup> August, Mr. Kiley advised the Committee that outstanding issues were discussed and parties had agreed to move forward with the planning application for the station car park development on the eastern side of the railway station. Preparation of the current drawings and supporting documentation were in hand, and submission of the application could now take place in late October. It was noted that this planning application would be called in and considered by the Eastern Area Planning Committee at WBC as Stratfield Mortimer Parish Council was the applicant.  
The parties would meet again in late September for updates on progress.  
Mr. Kiley advised that GWR indicated there is no longer any commitment for the electrification of the Reading/Basingstoke line which removes some concerns from the current car park plans.

There were several points in the ecology report which it was noted may not be practicable, but the developer was willing to meet as many of the recommendations as possible.  
Cllr. Morsley and Mr. Barber are due to meet with West Berkshire Council next week to confirm whether WBC can provide the biodiversity-friendly maintenance regime the Public Open Space (POS) will need and to enquire about the option of the Parish Council adopting

the POS. They will report back to the Planning Committee with details and what steps would be required for making a recommendation to the Full Council.
