Fairground: Footpath

Agenda item 22/068 8b: To resolve the budget of up to £20,000, from Community Infrastructure Levy Reserves, for the Fairground Footpath.

Background

Back in May 2022, the Committee were approached by The Chairman of The Oaks Childcare Club regarding putting in a footpath on the Fairground on the westside of the car park from the Community Centre to the Street.

The installation of a footpath would address the issue of the children from the Oaks Childcare Club and other members of the public, having to walk through the car park in the winter, when the Fairground is wet and muddy.

Proposal

- A pathway made of tarmac, golden gravel concrete running on westside of car park
- To run from The Street to the Community Center
- To include vehicle access/load bearing sections.
- Approximate dimensions 52 meters long by 1.2 meters wide

Costs

The cost of the project - £15,000 - £20,000

Recommendation

To approve a budget of up to £20,000 in order for quotes to be sought to enable the project to progress.

The Fairground Trustees have been informed and in principle are in favour but will need full details.
