

Stratfield Mortimer Parish Council

Roads, Footpaths and Commons Committee Meeting 02/02/2023

Speed Indicator Device (SID) and Automatic Speed Watch Camera (ASWC)

Agenda item 22/029 1:

- b. To resolve the sites for deploying the SID.

BACKGROUND

The deployment of SID is managed through the WBC SID Portal.

The 17 sites listed below are currently identified as “established” on the Portal. These are both from before, when the equipment was borrowed from WBC and since SMPC has had its own equipment.

Since buying the SID, the required Traffic Management Equipment (TME) Licence has been signed and 8 TME Site Approval forms have been submitted. These were for the sites highlighted in yellow and the ones that can currently be used with the SMPC SID.

From the experience of trained SID volunteer DI, it would be beneficial to also seek TME approval for those sites marked in green. The other unhighlighted sites have lesser activity and could be removed if the Committee wanted to consolidate the number of active sites in use. These could be brought online at a future date if needed.

Risks Assessments are needed for each approved location. The site Risk Assessments currently on the portal are WBC ones, relevant and expire in February. As SMPC is now using its own equipment, SMPC specific Risk Assessments need to be submitted to WBC for each active site.

80000002	Hammonds Heath at Fairground gate Southbound
----------	--

80000004	West End Road Westbound
----------	-------------------------

80000005	West End Road Eastbound
----------	-------------------------

80000008	Victoria Road near College Piece Eastbound
----------	--

80000010	West End Road Nr Alfred Palmer field -Mortimer Eastbound
----------	--

80000011	The Street adj to Horse & Groom (facing West) Eastbound
----------	---

80000015	Victoria Road near library Eastbound
