1. Introduction

Role of Emergency Services and Local Authorities

Major emergencies are normally dealt with in a co-ordinated joint response by the emergency services, local authorities, and the major utilities providers which includes water, power and train operators who are all classed as Category 2 Responders. The emergency services' two key objectives are to save and protect life and to contain the emergency. Local authorities will arrive at the scene behind the emergency services to assume responsibility for the welfare of those individuals who require assistance other than those in the care of the medical services. They will co-ordinate the provision of the voluntary services and arrange accommodation and welfare for those who need it once they have assessed the situation.

What is meant by an emergency or incident?

An emergency or incident is an event or situation which threatens serious damage to humans only if it involves, causes or may cause:

- **Loss of human life**
- **Human illness or injury**
- **Homelessness**
- **Damage to property**
- **Disruption to the supply of money, food, electricity or water**
- **Disruption to communication systems such as telephones and internet for more than 12 hours**
- **Disruption to transport**
- **Disruption of services related to health**

Or an event or situation which involves serious damage to the environment only if it involves, causes or may cause:

- **Contamination of land, water or air with biological or chemical matter or disruption or destruction of animal or plant life**

And also war or terrorism.

Types of potential emergency which might affect Launton

- **Flu or infections disease pandemic**
- **Major transport incident, especially blocking of bridge to/from Bicester**
- **Adverse weather/storm damage**
- **Parish cut off due to incident at bridge or snow**
- **Total loss of electricity and water services**
- **Explosion/Major fire/Gas leak or plume**
- **Building collapse**

Vulnerable Launton Residents

Many villagers and people who run groups and activities in the village will know of people who they might think of as vulnerable due to infirmity, age or other reason (for instance families with young children can be thought of as vulnerable). There is no formal list at present although Social Services has a list of its own clients, which can be activated in an emergency situation.

It is also possible to register with two priority services for electricity and water which will ensure that the utilities know of any assistance required.

For SSE contact their Priority Services Register at <https://sse.co.uk/help/accessibility/priority-services-register>.

For Thames Water contact (0800 009 3652 - lines open 08.00 – 17.00 or 0800 980 8800 for outside core hours).

For Gas contact the SGN Careline on 0800 975 1818 <https://www.sgn.co.uk/help-and-advice/extra-help/priority-services-register>

Relevant village organisations will also be made aware of any incident.

The Launton Village Support Group was formed to help support the villagers during the COVID-19 pandemic and many of the helpers are still in contact with the villagers they helped.

A regular notice will be published in *Launton Lines* and on social media reminding residents that there is a Launton Community Emergency Management Team with details of who to contact and how to sign up for priority services.

Checklist for actions in the event of a major emergency involving the emergency services and OCC Emergency Planning Team

The commencement of an Emergency Plan procedure will be at the discretion of the OCC Emergency Planning Team who will decide whether to initiate contacting volunteers, and if so, which ones, and will take advice from the Emergency Services

- Contact emergency services
 - Call 999
 - Give them the following information:
 - Your name
 - Your contact number
 - Exact location
 - Details of the Incident
 - Hazards & road blockages
 - Access
 - Estimated casualties
 - Emergency Services requested

E	EXACT LOCATION	What is the exact location or geographical area of the incident?
T	TYPE OF INCIDENT	What kind of incident is it?
H	HAZARDS	What hazards or potential hazards can be identified?
A	ACCESS	What are the best routes for access and egress?
N	NUMBER OF CASUALTIES	How many casualties are there, and what condition are they in?
E	EMERGENCY SERVICES	Which, and how many, emergency responder assets and personnel are required or are already on-scene?

- Contact OCC Duty Emergency Planning Officer
- Contact the Clerk and Chairman of the Emergency Team
- Contact Emergency Team members
- Chairman of the Parish Council
- Contact / alert emergency reception centre key holders
- Contact utilities

Structure of the Launton Community Emergency Response and Management Plan

The Launton Community Emergency Response and Management Plan is in three parts:

Part 1: Core Information. For use in all emergencies and containing the information required to be filed at Oxfordshire County Council (OCC) Emergency Planning Services.

It shows how the Launton community will be able to respond to major emergencies immediately they occur, in advance of the arrival of the emergency services and local authority. It will act as a guide as to what can be done if there is a delay – or non-attendance – in the arrival of emergency services / local authority help due to greater priorities elsewhere. The information in Part 1 is also for use in local emergencies that do not necessarily involve the emergency services or the OCC Emergency Planning Team.

Part 2: Local Information. For use in all non-major situations that require community action to safeguard the safety and well-being of Launton residents; for example, prolonged and heavy snow conditions, flooding, power loss etc.

It has been developed to cover Launton-specific emergencies where remedial activity is carried out by members of the local community and the emergency services are not necessarily involved – for example, if basic utilities cease to function for an extended period, or if adverse weather conditions persist (eg snow or flooding).

Part 3: Confidential Appendix. Contains informal information on local skills, services and equipment that may be requested in times of need and volunteer contact details. As such it is not for publication and its circulation is restricted to members of the Launton Community Emergency Response and Management Team.

Part 1: Core Information

Emergency Management Team Membership and Launton Core Community Emergency Plan Distribution List.

The Launton Community Emergency Response and Management Plan has controlled distribution to a limited number of people who hold the most up-to-date version of the Plan as detailed in the Plan Distribution List on Page 2.

The responsibilities of Launton Community Emergency Response and Management Team are to:

- act as the central response team and advise local residents of procedures;
- follow requests made by emergency services and local authorities;
- enact the plan until emergency services arrive;
- keep people informed, how and where/cascade system;
- ensure vulnerable people are contacted and assisted where relevant;
- be aware of vulnerable people within the community.

Core information for all emergency situations

All core members of the Launton Community Emergency Response and Management Team will need quick access to an up-to-date list of reference points and contact details. The following lists apply to all emergency situations:
