**GRANTED** – 1 February 2024

**SMPC Comments:** The Chairman gave his analysis of the heights of the different types of retaining wall (Type 1 to Type 5) based upon the contours shown on drawing 6145.SK80, to the effect that the maximum height of wall (Type 4 ) on the boundary between the housing and the open space (Type 5 being used only between the housing and not lower down the site) was approximately 2 metres.

The Committee was disappointed that there was no key provided to the maximum wall heights on the plan, but agreed it would have no objection provided that the analysis of those heights was correct. Otherwise the Council would need clarification of the heights of the different types of walls proposed across the landscaping.

(Post meeting note: subsequently the Chairman circulated a table showing an analysis of maximum wall heights as follows: Type 1, 0.6m; Type 2, 0.9m; Type 3, 1.4m, Type 4, 2m; Type 5, 2.7m.)
