

# Our existing structure

Most activity reports directly to Full Council

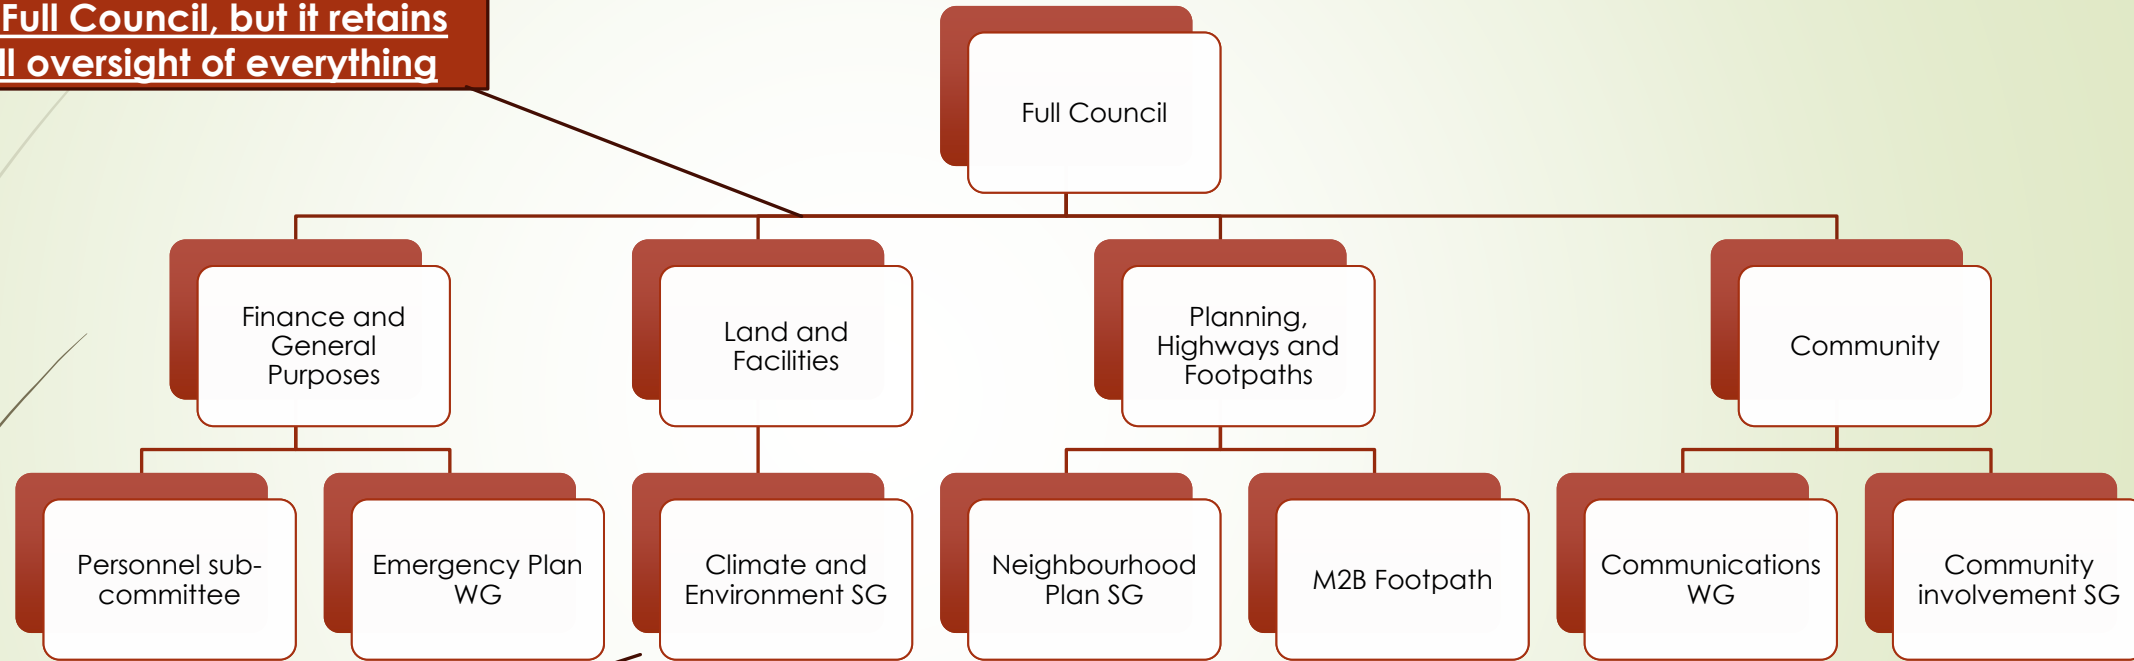

Other activity reports to F&GP Full Council

The structure promotes congestion in decision-making and oversight. This results in agendas at Full Council and F&GP being overly long and it can take a long time to get things done.

# Proposed New Structure – for discussion

**Fewer decisions flow directly to Full Council, but it retains full oversight of everything**

**Other activity is more equitably shared across the four committees**

The areas we are responsible for are more comprehensively covered and grouped more thematically. Agendas will be more focused, and decisions made at the right level, with Full Council retaining oversight and control.
