

Emergency Planning (AWE Zones)

Development may compromise evacuation routes and emergency service response times

The templates below are example statements to help guide your objection—please adapt them and express the points in your own words

- ‘The site sits within the AWE emergency planning zone, yet the Plan provides no assessment of evacuation feasibility or traffic constraints in an emergency scenario.’
- ‘Adding 350 homes would significantly increase the number of people requiring evacuation, placing strain on already limited routes.’
- ‘Emergency preparedness is a statutory requirement, and its omission raises serious safety concerns.’
- ‘The Plan fails to demonstrate that increased population can be safely managed during an emergency event.’
- ‘Without detailed modelling of emergency movement, the proposal should not proceed.’
