

Emergency Planning (AWE Zones)

Scale may affect AWE Off-Site Emergency Planning requirements

The templates below are example statements to help guide your objection—please adapt them and express the points in your own words

- ‘Major population growth within an AWE planning zone has implications for off-site emergency plans, yet these have not been assessed.’
- ‘The Plan does not demonstrate engagement with emergency planning authorities, which is essential for a site of this nature.’
- ‘Increased population density may necessitate new emergency procedures, none of which are referenced.’
- ‘Failure to consider AWE-related obligations makes the allocation potentially non-compliant with statutory requirements.’
- ‘This omission is a serious oversight that affects both safety and legal compliance.’
